

**FOR IMMEDIATE RELEASE**

October 7, 2020

## **SILVERSPOT CINEMA IS THE SPOT TO WATCH YOUR FAVORITE CONTENT. RENT YOUR OWN AUDITORIUM AND *STREAM WHAT YOU WANT, WHEN YOU WANT!***

Miami, Florida – Earlier this month, Silverspot Cinema announced the extension of its widely popular promotion, Silverspot Private Screenings, through November 15, 2020. Launched in August with great success, Silverspot opened more private screening showtimes through the end of October to keep up with demand.

With Silverspot Private Screenings, guests can reserve an entire theater to play the content of their choice from any streaming service and content requests have not been exclusive to movies. Guests have made the most out of this opportunity by using Silverspot's screens to watch a variety of content including debates, concerts, live sporting events and gaming sessions, pairing their experience with savory bites and tantalizing libations from Silverspot's full kitchen and bar.

With menu items that are made in-house daily from only the freshest ingredients, the menu is designed to offer something for everyone, including starters and shareables, sandwiches, salads, entrées, and desserts. The S Bar at Silverspot offers signature cocktails, craft beer, a selection of curated wine, by the glass and by the bottle. Best of all, everything can be ordered ahead of time and delivered to your seat just in time for your event. For the full menu, visit [silverspot.net/food-and-drinks](https://silverspot.net/food-and-drinks).

Rental fees start at just \$99 for reservations on Monday through Thursday. On Friday through Sunday, the fee increases slightly to \$149. This fee covers the cost of the auditorium only and allows for up to (20) guests. To watch a recently released film, guests will also have to purchase a movie ticket in addition to the theater rental fee.

"We have been amazed at the content our guests have requested and we do our best to accommodate these requests," said Silverspot managing partner, Gonzalo Ulivi. "Guests can continue to enjoy the content of their choosing, trading in their living rooms for the big screen. Silverspot has created a platform where close friends and families can gather in an exclusive private setting."

For more information and to make a Silverspot Private reservation, guests can visit [silverspot.net/private](https://silverspot.net/private).

Silverspot's main priority remains the health and wellbeing of its guests and employees. Reopening plans include a wide range of new health and safety measures based on guidelines provided by the CDC and local government, implementing enhanced protocols providing a safe environment for everyone. Guests will be required to wear masks until seated. More information can be found at [www.silverspot.net/welcomeback](https://www.silverspot.net/welcomeback).
